- RSVP:** By Thursday 15th August 2024 to
events@hlbwa.com.au
- CATERING:** A light breakfast will be provided.

Tips to avoid commercial litigation and understanding the key contract building blocks of commercial contracts.

Despite being a fact of commercial life, few businesses properly plan for commercial disputes or are fully aware of the steps they can take to avoid them; or, where they can't be avoided, to put themselves in the best commercial position to deal with them. This lack of preparedness can significantly disadvantage a business when litigation cannot be avoided. One of the key ways to avoid disputes, or put yourself in the best position if they do arise, is to get your commercial contracts right.

During their presentation, Jackson McDonald's Marcus Pullen and Liam McLagan will provide simple and effective tips to help your business avoid commercial disputes and position your business to deal with them effectively when (not if) they arise. They will provide you with an understanding of the building blocks of contracts that will empower your business to review, negotiate and enter into them confidently and with an understanding of their effect and consequences.

This event will consider important issues such as:

- Contract formation
- Essential concepts
- The fine print
- Statutory frameworks
- Alternative dispute resolution
- Unfair Contract Terms
- Privilege
